

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE

TO THE FIRST LONDON EDITION.

THE Author of the following pages, with a view to correct the then increasing evil of false and inaccurate Pedigrees, was, in the year 1791, prevailed upon to publish

“An Introduction to a General Stud Book,”

consisting of a small collection of Pedigrees which he had extracted from Racing Calendars and Sale Papers, and arranged on a new plan.

By the kind patronage and assistance of the principal Breeders and other Noblemen and Gentlemen of the Turf, it has grown into a bulky volume, which is now offered to the Subscribers and the Public, not as a *universal* Stud-Book, nor as perfectly free from error, but with a confident hope that it will be found to contain, in the most concise and most approved form, a greater mass of authentic information respecting the Pedigrees of Horses, than has ever before been collected together.

March 25, 1808.

P R E F A C E

TO VOL. II. FIRST LONDON EDITION.

To assist in the detection of spurious and the correction of inaccurate pedigrees, is one of the purposes of the present publication, in which respect the first Volume has been of acknowledged utility. The two together, it is hoped, will form a comprehensive and tolerably correct Register of Pedigrees.

It will be observed that some of the Mares which appeared in the last Supplement (whereof this is a republication and continuation) stand as they did there, *i. e.* without any additions to their produce since 1813 or 1814.—It has been ascertained that several of them were about that time sold by public auction, and as all attempts to trace them have failed, the probability is that they have either been converted to some other use, or been sent abroad.

If any proof were wanting of the superiority of the English breed of horses over that of every other country, it might be found in the avidity with which they are sought by Foreigners. The exportation of them to Russia, France, Germany, &c. for the last five years has been so considerable, as to render it an object of some importance in a commercial point of view. But this advantage some of our continental neighbours are of opinion will not long remain with us: they are fully aware of the source from whence we derive this superiority, and are in consequence

endeavouring to establish Races on the English plan, which, together with a more careful selection of stallions and mares than they observe in England, will very soon, they say, enable them to excel us, and they anticipate a day (not very distant) when the English must send to the Continent, if not for speedy, at least for *sound* horses.

This hint about soundness may be worth attention, but for the rest, with the advantages this country already possesses, and so long as Horse-racing continues to be followed up with spirit by men of rank and opulence, there can be little to apprehend.

To the principal Breeders, whose assistance has been so obligingly afforded, the Editor takes this opportunity of returning his sincere and grateful acknowledgments, as well for past communications, as, in some instances, for the promise of an *annual* list for the future from themselves or their Stud-grooms, of all the foals they breed: this he most thankfully accepts, as a means of facilitating any future publication, and by adopting in some degree the practice of the original Compiler (who never suffered a day to pass without adding or correcting) he hopes, should he live to publish another Volume, the undertaking may prove less laborious, and the book itself be more perfect.

To many others besides the Proprietors of Studs, he feels himself greatly indebted, and begs them to accept his sincere thanks.

1780 b. f. by Herod	-	-	-	-	Ld Egremont

This mare was barren in 1775, 1777, and 1779, and died in the spring of 1781; Highflyer's only sister dislocated her hip, in running at Nottingham in 1783, and died in two hours.

☞ Highflyer never paid forfeit, and was never beaten. The author is induced to deviate thus far from his general plan, at the request of an old sportsman, from whom he learns that many bets have been made on this fact, owing to an error in the Index to the Racing Calendar for 1777, wherein Highflyer is confounded with a colt of the same age, got by Herod, out of Marotte.—Highflyer was bred by Sir Charles Bunbury.

N. B.—*Mark Anthony*, *Conductor*, *Pyrrhus*, and *Pantaloön*, were all of a year, and all the first foals of their respective dams.

FOURTH PART.

ARABIANS, BARBS, AND TURKS.

KING JAMES THE FIRST bought an Arabian of Mr Markham, a merchant, for 500 gs, said (but with little probability) to have been the first of that breed ever seen in England. The Duke of Newcastle says, in his *Treatise on Horsemanship*, that he had seen the above Arabian, and describes him as a small Bay Horse, and not of very excellent shape.

The **HELMESLEY TURK** was the property of the Duke of Buckingham, and got Bustler, &c.

PLACE'S WHITE TURK was the property of Mr Place, studmaster to Oliver Cromwell, when Protector, and was sire of Wormwood, Commoner, and the great grandams of Wyndham, Grey Ramsden, and Cartouch.

ROYAL MARES, King Charles the Second sent abroad the Master of the Horse, to procure a number of foreign horses and mares for breeding, and the mares brought over by him (as also many of their produce) have since been called Royal Mares.

DODSWORTH, though foaled in England, was a natural Barb. His dam a Barb mare, was imported in the time of Charles the Second, and was called a Royal Mare. She was sold by the studmaster, after the King's death, for 40 gs, at twenty years old, when in foal (by the Helmsley Turk) with Vixen, dam of the Old Child mare.

The **STRADLING** or **LISTER TURK** was brought into England by the Duke of Berwick, from the siege of Buda, in the reign of James the Second. He got Snake, the Duke of Kingston's Brisk, and Piping Peg, Coneyskins, the dam of Hip, and the grandam of the Bolton Sweepstakes.

THE BYERLY TURK was Captain Byerly's charger in Ireland, in King William's wars (1689, &c.) He did not cover many bred mares, but was the sire of the Duke of Kingston's Sprite, who was thought nearly as good as London; the Duke of Rutland's Black Hearty and Archer, the Duke of Devonshire's Basto, Lord Bristol's Grasshopper, and Lord Godolphin's Byerly Gelding, all in good forms; Halloway's Jigg, a middling horse; and Knightley's mare, in a very good form.

GREYHOUND. The cover for this foal was in Barbary, after which both his sire and dam were purchased, and brought into England by Mr Marshall. He was got by King William's White Barb, *Chilley*, out of Shaggy, a natural Barb mare. Greyhound got the Duke of Wharton's Othello, said to have beat Chanter easily in a trial, giving him a stone, but when falling lame ran only one match in public, against a bad horse; he also got Panton's Whitefoot, a very good horse; Osmyn, a very fleet horse, and in good form for his size; the Duke of Wharton's Rake, a middling horse; Lord Halifax's Sampson, Goliath, and Favourite, pretty good 12 stone Plate horses; Deedemona, and other good mares; and several ordinary Plate horses, who ran in the North, where he was a common stallion, and covered many of the best mares.

THE D'ARCY WHITE TURK was the sire of Old Hantboy, Grey Royal Cannon, &c.

THE D'ARCY YELLOW TURK was the sire of Spanker, Brimmer, and the great great grandam of Cartouch.

THE MARSHALL, or SELABY TURK, was the property of Mr Marshall's brother, studmaster to King William, Queen Anne, and King George the First. He got the Curwen Old Spot, the dam of Windham, the dam of the Derby Ticklespinner, and great grandam of the Bolton Eleven and Fearnought.

CURWEN'S BAY BARB was a present to Lewis the Fourteenth, from Muly Ismael, King of Morocco, and was brought into England by Mr Curwen, who, being in France when Count Byram, and Count Thoulouse (two natural sons of Lewis the Fourteenth) were, the former, Master of the Horse, and the latter, an Admiral, he procured of them two Bay Horses, both of which proved excellent stallions, and are well known by the names of the *Curwen Bay Barb*, and the *Thoulouse Barb*. Curwen's Bay Barb got Mixbury and Tantivy, both very high-formed galloways, the first of them was only thirteen hands two inches high, and yet there was not more than two horses of his time that could beat him, at light weights. Brocklesby, Little George, Yellow Jack, Bay Jack, Monkey, Dangerfield, Hip, Peacock, and Flatface, the first two in good forms, the rest middling two Mixburies, full brothers to the first Mixbury, middling galloways Long Meg, Brocklesby Betty, and Creeping Molly, extraordinary high-formed mares; Whitcock, Mistake, Sparkler, and Lightfoot, very good mares, and several middling galloways, who ran for Plates in the North. He got two full sisters to Mixbury, one of which bred Partner, Little Sea Bornebeck, and the dam of Crab; the other was the dam of Quiet, Silver Eye, and Hazard. He did not cover many mares except Mr Curwen's and Mr Pelham's.

THE THOULOUSE BARB became afterwards the property of Sir J. Pakenham, and was the sire of Bagpipar, Blacklegs, Mr Panton's Molly, and the dam of Cinnamon.

DARLEY'S ARABIAN was brought over by a brother of Mr Darley, of Yorkshire, who being an agent in merchandises abroad, became member of a hunting club, by which means he acquired interest to procure the best horses. He was sire of Childers, and also got Almanzor, a very good horse; a white-legged horse of the Duke of Somerset's full brother to Almanzor.

and thought to be as good, but, meeting with an accident, he never ran in public; Cupid and Brink, good horses; Dædalus, a very fleet horse; Dart, Skipjack, Manica, and Aleppo, good Plate horses, though out of bad mares; Lord Lonsdale's mare in very good form, and Lord Tracy's mare in a good one for Plates. He covered very few mares except Mr Darley's, who had very few well bred besides Almanzor's dam.

SIR J. WILLIAMS'S TURK (more frequently called the HONYWOOD ARABIAN) got Mr Honeywood's two True Blues: the elder of them was the best Plate horse in England, for four or five years; the younger was in a very high form, and got the Rumford Gelding, and Lord Onslow's Grey Horse, middling horses, out of road mares. It is not known that this Turk covered any bred mares except the dam of the two True Blues.

The BELGRADE TURK was taken at the siege of Belgrade, by General Merci, and sent by him to the Prince de Craon, from whom he was a present to the Prince of Lorraine; he was afterwards purchased by Sir Marmaduke Wyvill, and died in his possession about 1740.

Of BLOODY BUTTOCKS, nothing further can be traced from the papers of the late Mr Crofts, than that he was a Grey Arabian, with a red mark on his hip, from whence he derived his name.

CROFTS' BAY BARB was got by Chillaby, out of the Moonah Barb mare.

The GODOLPHIN ARABIAN was a brown bay, about fifteen hands high, with some white on the off heel behind; there is a picture of him and his favourite Cat in the library at Gog Magog, in Cambridgeshire, at which place he died, in the possession of Lord Godolphin, in 1753, being then supposed to be in his twenty-ninth year.

Whether he was an Arabian or a Barb is a point disputed (his portrait would rather lead to the latter supposition) but his excellence as a stallion is generally admitted. In 1731, then the property of Mr Coke, he was Teaser to Hobgoblin, who refusing to cover Roxana, she was put to the Arabian, and from that cover produced *Lath*, the first of his get. It is remarkable that there is not a superior horse now on the Turf, without a cross of the Godolphin Arabian, neither has there been for many years past.

There is an original Portrait of this horse in Lord Cholmondeley's collection at Houghton; on comparing which with Mr Stubbs's print of him, it will be seen that the disproportionately small limbs, as represented in the latter, do not accord with the painting.

The CULLEN ARABIAN was brought over by Mr Mosco, and was sire of Mr Warren's Camillus, Lord Orford's Matron, Mr Gorges's Sour Face, the dam of Regulator, &c. &c.

The COOMB ARABIAN (sometimes called the *Pigot Arabian*, and sometimes the *Bolingbroke Grey Arabian*) was sire of Methodist, the dam of Crop, &c. &c.

The COMPTON BARB, more commonly called the *Sedley Arabian*, was sire of Coquette, Greyling, &c.

The VERNON ARABIAN was a small Chestnut horse. He covered at Highflyer Hall, and was the sire of Alert, &c.—Alert had good speed for a short distance.

The WELLESLEY GREY and CHESNUT ARABIANS (so called) were brought from the East, but evidently not Arabians—the former was a horse of good shape, with the size and substance of an English hunter.

[N.B. Under the head of "OWNER OR BREEDER," when a horse has run, it has been our endeavour to select the person in whose name he first appears in the Racing Calendar, in order to facilitate the search for his performances.—Where the name of the horse is enclosed in a parenthesis (as for example, *Madrid* in page 310, and *Cockpitner* in 311) it signifies that such name was given by a subsequent proprietor.]

[N. B. Under the head of "OWNER OR BREEDER," when a horse has run, or is sold with a probability of his being trained, it has been our endeavour to select the person in whose name he first appears, or is likely to appear, in the Racing Calendar, in order to facilitate the search for his performances.—Where the name of the horse is enclosed in a parenthesis (as for example, *Victory* in the 536th page, and *Zodiac* in the 539th) it signifies that such name was given by a subsequent proprietor.]

* Gutty produced in 1829 a ch. f. by Greyleg, and 1832 a ch. c. by Greyleg, having missed in 1830 and 31.

The year 1825 was remarkable in the Petworth Stud for the production of dead foals, as will be observed in the account of this and many of the preceding mares. The mortality was not confined to the blood-stock, or to any particular week or month, but extended throughout the season, from February to June, and equally affected the produce of the cart mares and of the Asses.

Some of the foals were opened, and it was supposed that their livers were diseased. Fourteen mares produced dead foals, and three produced unhealthy ones, which lived but a short time, and all the Asses produced dead foals.

The mares were in different situations, and with different keeping, but in general they were pastured upon a very high dry land, with a light soil of little depth, upon a bed of stone; they went their full time, or very near it, and the foals were known to be alive within three or four days of foaling, and were fine and of full size.

N. B. It will be observed that the pedigree now given of this mare differs from that which appeared in the last edition. The correction is made on the authority of Sir Charles Monck, who has furnished the Editor with an exact copy of the pedigree, which he received with the Y. Marske mare. The latter mare died in 1805, and the other produce which she had, while in Sir C. Monck's possession, were colts, and were not trained.—It is probable that the Y. Marske mare, out of Pyrrha, died in 1800, as was originally stated in the first and second editions of the 1st Vol.

* This mare was sold to Mr Messer as got by Orville, her dam by Hambletonian—Shuttle—Overton—Beningbrough's dam, which pedigree can scarcely be correct. The only Hambletonian mare so bred is the sister to Molineux, p. 790, and she was taken to Russia by Mr Kirby, in 1818, with her grandam (the Overton mare), and her two brothers, Molineux and Hilton Miller. The Hambletonian mare was purchased by Mr Kirby of Mr Bamlett, who had her from Sir H. Vane: it is therefore improbable that she had been at all in the south of England, where Orville covered, and Mr Kirby believes that she was not put to horse till 1818, when she was covered by Thunderbolt. At p. 790 it is incorrectly stated that the Overton mare went to Ireland.

Flying Childers. He was sire of Gov. Ogle's Badger, a capital racer at four mile heats.

DOVE, a beautiful grey,

Imported by Dr Thomas Hamilton, of Prince George's county. He was got by Young Cade, his dam by Teazer, out of a Gardiner mare. Teazer, by the Bolton Starling. The year of his importation is not known, but is supposed to have been 1761 or 1762. In 1763 he started for the purse at Annapolis, which was won by Mr Galloway's Selim. His colts in general had speed, and some of them both speed and bottom. Dove was sire of Mr Macgill's Nonpareil, Primrose, Thistle, Mr Beannes's Regulus, the grandam of Mr Hall's Union, &c. Nonpareil was a capital racer, when young, but being of slender frame, he could do nothing when carrying full weight. He was the best four mile horse of Dove's get. He was never beaten until he met Lath in Philadelphia.

FIGURE, a bay,

About 15½ hands high, foaled in 1757; got by Grey Figure, and he by Bashaw, afterwards called Old Standard. Figure was imported by Dr Hamilton in the year 1765; his dam Mariamne, by Partner. In 1766 he won the purse at Annapolis, at four heats, beating Mr Bullen's horse Tryall, Mr Yeldell's Chester, &c. Chester won the 1st heat, Figure the 2d, Tryall the 3d, and Figure the 4th, beating Tryall a few inches only. Tryall lost the heat by bad riding. In May, 1768, Figure won at Upper Marlborough, beating Mr Galloway's Selim, Mr Thornton's Merryman, and Mr Thomas's Buckskin. He was one of the handsomest and best formed horses ever imported into this country. His colts in general had speed and bottom. He was sire of Col. Fiddeman's Grey Figure, Mr Petterson's Rochester, Mr Williamson's brown Figure, Harmony, the dam of Union, &c. all good runners.

OTHELLO, black,

Foaled 1743, bred by Lord Portmore. He was got by Crab, out of Miss Slamerkin, and was imported by Gov. Sharpe. It has been asked, in what year? It is not now certainly known. Gov. Sharpe commenced his administration in Maryland in the year 1753, and continued until he was superseded by Gov. Eden in 1769. He was imported probably about the year 1767 or 8. Selim was foaled in 1759, and it is believed that he was among the first of Othello's progeny. Othello was sire of True Briton. All his colts from full bred mares were good runners, and were remarkable for their bottom. In May, 1767, he stood in Beale's neck, near Annapolis; and it is supposed he died in that year, as he was not heard of afterwards.

RANGER, b.

Imported by Dr Thos. Hamilton, of Prince George's county, perhaps about the time of the importation of Figure. He was got by Martindale's Regulus, a son of the Godolphin Arabian. He was unsuccessful in all his trials on the turf, and was generally distanced.

He was imported by Gov. Eden about the year 1774.

Imported about the same time. He also started for the purse at Philadelphia, with Selim and Northumberland, and ran the first heat in good time. He belonged to Mr Leary. His pedigree is not known. In this country, he was sire to Col. Sim's Wildair; and of Sultana and other racers bred by Mr Delancey.

Lath won some purses in England, and never was beat until the fall of the year 1771, when he ran a match at Warwick with Col. Lloyd's mare, Nancy Bywell, a single heat of 4 miles for 300 guineas. She beat him with ease. It was said he was out of order.
